Třebíč

Družstevní ul. p. č. 502/1
674 01 Třebíč
Tel.: 731 440 922
trebic@chaloupky.cz

Why we are here

We try to show children, young people and adults the secrets of nature as well as its depth and fragility. We support such knowledge, skill and attitudes, which create respect and consideration towards nature as well as ecologically responsible behavior and a sustainable life.

CHALOUPKY

We teach the language of nature

Czech Republic
Vysočina region

- We teach children from nursery age to high school about nature, our country and home, all this in the open air.
- We organize camps, we lead clubs and groups and we prepare natural science competitions.

- We educate teachers and support their methodology.
- We organize events for families – grandparents included.
- We provide social services and offer garden therapy.

- We have a small farm which produces dairy products for our programs and other customers.
- We keep sheep in order to maintain the landscape.
- Our partner social company makes joinery products and cares for the landscape.

- We offer accommodation and education in a centre run in an environmental-friendly manner.
- We support school gardens and nature gardens, provide certificates, give advice and organize workshops.
- We publish an on-line magazine School Garden.
